24 ▼ Very good points. Having multiple local rallies is a waste of time now. There needs to be a massive protest in DC on the 6th. By massive, I mean in the 2M+ range. The time for fucking around has come and gone. This DC protest on the 6th has to show the entire world that Americans will take back the country when their political leaders fail them.

9 ▼ The only people who should make noise where they are instead of going to DC are those who aren't on North American soil.

I've been making sure all of my american friends are going. Not only for themselves but because the world desperately need leadership to meet the corruption. Europe can't mobilize unless you move first, it's a tragic truth but shit has really gone that far.

Like it or not, but you and Trump are the leaders of the free world. Just like China is the polar opposite.

4 ▼ I am not American but I remember hearing about the peaceful protest at Georgia's state capital a few months back. AS far as I know, no serious crimes of any kind were committed that day even though there were hundreds of armed people there. it proves that Americans would conceal/open carry are more law abiding than the average democrat.

This means that they are about the rule of law and its origin: the Constitution. I hope that the protest on 6th of Jan will be so big that no-one can ignore it.

15 ▼ This should be stickied, and linked in the main thread for the 6th. If Donald J Trump is not president on the 6th, we do not fix it later. We go while we have momentum and numbers, and force the issue. ▼

We have a singular goal. Congress. Do not deviate, do not wait for others. Go. Not everyone is a leader, the others will follow. We stand united, or I guess I'll see you in the camps.

FIGHT. The time for words is over if the vote is tallied for Biden!

▼ Not to mention every minute the fraud evidence is denied is another opportunity to destroy that evidence. If Trump does not have another term, then the proof goes away and any attempt to overthrow the corrupt politicians vanishes forever.

▼ Look, governments can easily arrest 1000-2000 people in 24 hours with very little probable cause.

Trump are you reading this? Now do the people who you say committed fraud or destroyed the evidence of fraud.

▼ for fucks sake, you have been here almost a year, how are you still not understanding the critical part of Trump's problem.

The federal law enforcement who could easily execute those arrests have spent the last 4 years taking their orders from Obama.

FBI and DOJ will not obey Trump's orders - how are you still not getting this after all the ways FBI fucked Trump over by sitting on critical evidence and doing nothing, after the heads of both FBI and DOJ 1 people there was no election fraud during the most critical point of the fight. ✓

Name one time that FBI and DOJ came through for MAGA? and no, not when they eventually whittled

Yes you are right, and the fact the FBI and DOJ haven't done even one thing in 4 years shows it was foolish to include them in a plan in the first place. Yet, that's what is still being done with the new AG of the DOJ, more posts assuming he will arrest someone (he won't).

This is not a simple problem but it's not impossible either. I'm convinced Lincoln or Washington could have easily resolved this. Can Trump? I hope so but he will have to take bold action.

frankly, i think Trump missed his chance.

I think he underestimated how far they would go to steal the country and never prepared for the fact that he might need to use force. He needed to be replacing people and getting firm liasons with the military throughout the full 4 years.

Its too late now - the further election progressed, the less legitimate authority he had to do what he needed.

The DOJ and FBI are basically in mutiny and the way to solve mutiny is pretty simple.

Order them as POTUS to arrest the people in the Georgia election videos, for example. They have 24 hours to do it. If they don't comply, arrest them for obstruction of justice. Now repeat with the next person in line.

This isn't complicated but it requires bold action and real consequences.

yes... and that should have been done within first week after election.

relying on courts was a mistake - let democrats whine to courts in response to YOUR actions.

I still can't believe so many pedes here bought in to the whole 'all part of the plan - we wanted to lose, to catch them cheating'. Optimism to point of absurdity.

Once he went to courts, he publicly declared that they get to decide the dispute over election - now that they decided against him, going to the army looks even worse.

I don't know where this goes now, but I feel like Jan 6th will be our last hurrah - and everything is stacked against us.

I just realized last night, the mods leaving that call to action tweet up for a week has now given us a rather firm count as to how many of us are here.

20,000 upvotes in a week = 20,000 pedes. We need a million people brave enough to come with rifles to DC, and organized enough to form into unstoppable caravans if want this to mean something. But our communication channels have been almost cut off.

Jan 6th isn't being talked about anywhere but here.

Trump better have something more in his arsenal. Loyal military seems like the only chance he

I agree, four years of lawlessness and zero consequences for mutiny was not the way to set up the law and order needed to prosecute the most fraudulent election in history.

That was the biggest mistake Trump made in these four years, now he has to dig himself and the USA out of this hole, and that is not some genius plan.

I agree. The previous rallies and Trump trains were organized on Facebook. Are those still going on?
